you can say is,
well, I made it
home again.**

MOOD: tired

MUSIC: oh yes.

And some days you can say, "That's enough."

Mark Knopfler was never this young.

*Yes, and it's no use saying that you don't know nothing--
Still gonna get you if don't do something--
Sitting on the fence that's a dangerous course.
You can even catch a bullet from the peace keeping force.
Even a hero gets a bullet in the chest.
Oh yes. Once upon a time in the west.*

Random holiday cookie recipe is random.

"Peeling Bells" cookies: This is a thing my mom used to do. 2 cups flour 6 tbsp butter 3/4 cup sugar 1

Away with the dull drudgery of workaday tiday waves!

I believe this is a significant advance in pot pie technology. Make your pie crust. Par-cook

As easy as-- no, really.

I was talking about the chicken pot pie I was making on Twitter, and it turns out, a lot of people

That sounds grim. I'm sorry.

Could be worse, I guess.

How are you doing?

Wishing for snow; Missing absent loved ones; Teaching the puppy to track: Ok on balance.

And I'm thinking about trying to make some beer bread as a nice change from my usual no-knead recipes. I figure using something from [Dogfish Head](#) could be fun.

That sounds great. I wish I'd known about your no-knead bread when I got hurt. I should try that now.

This is the wrong end of the journey to say this, but..."otsukaresama-deshita" (lit. "oh honored tired lord you have been...") It's normally said at the end of a task, before everyone heads home.

That's beautiful. What does it mean in cultural context?

At the end of a long day, especially one where the team has worked harder than normal, someone will thank the others for their effort. It's the ritual good bye for a tough task. (In Japanese. Sorry, edited that out accidentally from the last comment.)

I think I might have misread your question.

The other part of it is a reassurance that your effort was noticed. Er, sorta kinda like "well done, oh good and faithful servant" ?

I think you answered my question just right.

^ _ ^

Every time I have to explain a process to someone, I think of you for a moment, because I've come to try to work out "failure mode" analysis in my explanations.

I'm glad you made it home.

(The Universe considers 'made it home' optional. I'd like to speak to someone about that, damn it.)
